

ASC RCM Performance Checklist

Keep your center running efficiently & financially strong all year long

Denials Management

- Audit your top 5 denial codes from 2025
- Identify root causes (documentation gaps, coding errors, payer rules)
- Put tracking in place for Q1 2026

Patient Financial Engagement

- Review patient billing communications
- Ensure cost estimates & payment options are transparent
- Add mobile/text payment reminders if not in place

Compliance & Regulatory Prep

- Confirm updates to CMS prior authorization/demo programs for 2026
- Re-train staff on new coding/billing guidelines
- Run an internal compliance "spot check"

AI & Automation Readiness

- Benchmark current manual workflows vs. automated processes
- Explore AI tools for claim edits, predictive denials, coverage discovery
- Prioritize quick-win automations for 2026 rollout

Benchmarking & KPIs

- Compare your 2025 net collection rate, AR days, and denial rate vs. ASC benchmarks
- Align with leadership on revenue goals for 2026
- Use ROI calculators to forecast growth opportunities

SYNERGEN Health helps ASCs optimize performance, prevent revenue leakage, and build long-term financial resilience.
